SUMMARY

Self-taught iOS developer located in the San Francisco Bay Area. Passion for learning and developing quality apps with an appealing UI design in mind. Background in pharmacy with experience providing excellent customer service, collaborating with other healthcare providers, and utilizing clinical knowledge to ensure safe and effective use of medications.

PERSONAL PROJECTS

Drug Names - iOS

A quiz and flash card app for learning the brand and generic names of 300 popular prescription and over-the-counter drugs. Tracks daily, weekly, and all-time stats for quizzes. Built with SwiftUI and Core Data.

Available on the App Store

Webpage:
https://larryn35.github.io/drugnames.html

Features:

- Searchable list of all 300 drugs
- Editable hint for each drug
- Customizable app appearance
- Light and dark mode support

Hello World - iOS

A real-time chat app built with SwiftUI and Firebase. Users can join or create their own rooms and chat with others.

Github:
https://github.com/larryn35/HelloWorld

Features:

- User authentication via email and password
- Store and fetch pictures selected from photo library or camera
- Track message timestamps and number of unread messages

SKILLS

Languages: Swift
Databases: Firebase, Core Data
Tools: Xcode, Visual Studio Code, Github

Design: Canva, Figma
Other: CSS/HTML, HIPAA-trained
